

Go Green: Switch on the Power of Solar

ENGIE's approach to a
more sustainable future

ENGIE

Switch on the power of solar energy with ENGIE

Enjoy long-term, sustainable rewards while our turnkey solutions do all the work.

ZERO UPFRONT COSTS

Pay only for the power you use with zero CAPEX. ENGIE handles everything else, from financing, installation to operations.

MORE COST SAVINGS

Enjoy competitive, fixed pricing on your electricity. ENGIE provides a medium to long-term hedge with price certainty, regardless of fluctuations in electricity prices.

HANDS-FREE RELIABILITY

Get best-in-class operations and maintenance of your solar installations. Our technical specialists have a high output commitment and will manage the whole process end-to-end.

LOWER CARBON FOOTPRINT

Be confident your carbon emissions will be reduced, and join a global network of sustainability and green commitment.

About ENGIE

ENGIE is a global industry leader in low-carbon energy supply and related services. Along with its employees, customers, partners and stakeholders, the Group is committed to accelerating the transition to a carbon-neutral world through more energy-efficient and environmentally friendly solutions.

Regionally, we have a fast-growing team of over 2,000 employees with a geographical focus in Singapore, Malaysia and Philippines to provide tailor-made integrated solutions for our customers in commercial buildings, industries, cities, and communities.

Flexible services to address your solar needs

Rooftop Solar PPA

We provide hands-free, certified green power supply from the comfort of your own site. Pay only for the power you use to enjoy immediate cost savings without worrying any CAPEX incurred.

- Discounted solar electricity at Zero up front cost
- Guaranteed performance and energy output
- Certify and report carbon footprint via digital platform

Virtual Solar PPA

We set up the financial structure for you to purchase offsite green energy and map your energy demand through Renewable Energy Certificates.

- Go 100% Green with one contract to cover all your site across Southeast Asia
- Certify and report carbon footprint via digital platform

Solar Roof Leasing (Rental)

Discover a sustainable and lucrative opportunity for your business by leasing your unused rooftop space with ENGIE. Monetize your roof space efficiently and join us in paving a greener future.

- Zero CAPEX and OPEX
- Generate recurring income from rooftop leasing
- Positive impact on the environment
- Improves the value of your property

Customised Solar Energy Solution

Our extensive industry knowledge and experience has enabled us to deliver diversification of custom solar options to meet the exact requirements.

We provide tailored solutions that are customized to fit your electricity needs and suit your business specific objectives.

Further enhancement to Solar Energy with our Energy Efficiency integrated solutions.
